# SAROOT AREERATTANAWETCH

## QUALITY ASSURANCE ENGINEER | SOFTWARE TESTER

saroot.nae@gmail.com | www.linkedin.com/in/saroot-fed | https://stormnoopper.netlify.app/

## SUMMARY

Computer Engineering student & QA Specialist proficient in Manual and Automated testing. Experienced in performance testing and Agile methodologies, dedicated to ensuring software reliability and enhancing user experience through rigorous quality assurance.

## EDUCATION

**Chulalongkorn University** **Aug 2023 – Expected 2026**
B.Eng. in Computer Engineering and Digital Technology (CEDT) GPAX : 3.15

**Princess Chulabhorn Science High School Phitsanulok** **May 2017 – Mar 2023**
Sciences and Mathematics Program GPAX : 3.58

## EXPERIENCE

**National ITMX (Intern) - Software Developer** **May 2024 - July 2024**

- Collaborated on high-scale web application development using Next.js, and Java Spring Boot
- Developed and executed test cases and test plans for web applications, documented bugs, and verified fixes before deployment.

**Smart Shift Solutions (Intern & Freelance) - Full-stack developer** **May 2025 - April 2026**

- Researched AI/Automation solutions to improve product features and system optimization.
- Developed an end-to-end CRM system using Next.js and Kotlin Spring Boot to improve client workflow efficiency.

**Ayodia Co.,LTD (Intern) | Software Tester** **May 2026 - July 2026**

- Executed manual functional, regression, and integration tests for web applications.
- Tracked defects, verified fixes, and collaborated with developers to ensure product quality.
- Performed API testing and maintained QA documentation.

## SKILLS

**Testing:** Manual Testing, Test Case Design, Test Planning, Functional Testing, Integration Testing, Regression Testing, API Testing, Performance Testing, Bug Tracking
**Automation & Tools:** Playwright, k6, Robot Framework, Jira/Trello, Postman, GitHub, GitLab, Docker, SQL
**Programming:** Java, Spring Boot, Next.js, Golang, Python
**QA Processes:** Agile/Scrum, SDLC, STLC, Defect Life Cycle, Test Documentation

## RELEVANT PROJECTS & ACHIEVEMENTS

- **Human Trafficking Case Reporting System [Collaboration with TATIP]** Developed and tested a secure web-based reporting system for case reporting and tracking, covering anonymous reports, dashboards, role-based workflows, AI case matching, and performance validation.
- **BPF-Best [CU Coding Challenge Project | First Runner-up]** Tested a fund comparison platform by validating data mapping, calculation accuracy, filtering/search functions, edge cases, and overall user workflow reliability.
- **Microsoft AI for Accessibility Hackathon 2024 [Finalist Last 10 Team]** Designed and validated “New Vision” glasses for the blind, focusing on user requirements, functional reliability, accessibility testing, and user-centered design.
- **TESA Top Gun Rally #18 [6th Place & Top Score Hardware Programming]** Tested a predictive maintenance prototype by validating hardware-software integration and analyzing machine sound data for accurate industrial insights.
